

## Multiple Pop-up Card – Class 32 - 2022

### SUPPLIES

| QTY | PRODUCT                            | A6 CARD  | DESCRIPTION  |
|-----|------------------------------------|--|--|
| 1   | Card Base                          | 14.8cm x 21cm (A5)<br>(5 7/8" x 8 1/4")                    | I used a Kraft card base, but you can use any colour   |
| 1   | Cardstock                          | 12.3cm x 8cm<br>Metric Rectangle 6<br>(4 7/8" x 3 1/8")    | I used J Burrows 250gsm card stock for this A light weight cardstock. On the example pictured, I stencilled it. You can use this as a matt layer and put a piece of patterned paper on top. (This piece of patterned paper is not included in this list. |
| 1   | Plain Cardstock or patterned paper | 14.8cm x 10.5cm<br>Metric Rectangle 1<br>(5 7/8" x 4 1/4") | This will be used on the inside of the card – so choose something that you can write your personal message on.   |
| 1   | Patterned Paper                    | 14.8cm x 10.5cm<br>Metric Rectangle 1<br>(5 7/8" x 4 1/4") | I suggest a subtle pattern – we will be using this with the white card stock to line the inside of the card.   |
| 1   | Cardstock                          | 17cm x 8cm<br>(6 3/4" x 3 1/8")                            | I used lightweight card. This is for one of the pop-up sections inside the card. Score on the 17cm edge every 4cm.   |
| 2   | Cardstock                          | 17cm x 4cm<br>(6 3/4" x 1 5/8")                            | I used lightweight card. These are for two of the pop-up sections inside the card. Score on the 17cm edge every 4cm.   |
| 1   | Cardstock                          | 7cm x 1.5cm<br>(2 3/4" x 5/8")                             | I used lightweight card. This is to hold up one of the panda's – or whatever embellishment you are using. Score on the 7cm edge every 1.5cm  |
| 1 * | Cardstock                          | 8cm x 1.5cm<br>(3 1/8" x 5/8")                             | I used lightweight card. This is to hold up one of the panda's – or whatever embellishment you are using. Score on the 8cm edge at 2cm, 3.5cm, 5.5cm and 7cm   |
| 1 * | Cardstock                          | 6cm x 1cm<br>(2 3/8" x 3/8")                               | I used lightweight card. This is to hold up one of the panda's – or whatever embellishment you are using. Score on the 6cm edge at 1cm and 5cm   |
|     | Embellishments                     |  | I used 6 Pandas that I stamped and cut from this month's kit but you can use anything that you like.   |

### FROM YOUR STASH

| CONSUMABLES  | TOOLS   |
|--|---|
| <ul style="list-style-type: none"> <li>Glue / double sided tape</li> <li>Ink for greeting stamp – I used Versafine black Onyx</li> </ul> | <ul style="list-style-type: none"> <li>Scissors</li> <li>Bone folder</li> <li>Score board OR ruler and stylus / bone folder</li> <li>Die cutter and Metric rectangle dies OR paper trimmer</li> </ul> |

ADDITIONAL NOTES:
