

Triple Point Card

SUPPLIES

QTY	PRODUCT	A6 CARD	DESCRIPTION
1	Cardstock	25cm x 12.5cm (10" x 5")	Folded in half to make a 12.5cm x 12.5cm (5" x 5") Card base. I use 350gsm Card Stock
1	Coloured / Patterned Paper	12.5cm x 12.5cm (5" x 5")	This is the matt layer on the front of the card. I used metallic paper in the example, but you can use a plain paper – <i>this is optional</i>
1	Patterned Paper	12.5cm x 12.5cm (5" x 5")	This is for the top layer. In the example I used 2 different patterned papers so I started with 2 pieces. I made another card with the left over papers – just the other way around. You can use the same patterned paper for the large triangle and the 2 smaller ones.
1	Patterned paper	12cm x 12cm (4 1/4" x 4 1/4")	This is for the inside of the card – I used a light colour with almost no pattern
	Ephemera		I made the embellishment on the front with some paper and ephemera that came in a kit.
