Bauble Card

SUPPLIES

QTY	PRODUCT	MEASUREMENT	DESCRIPTION
1	Cardbase	21cm x 14.8cm	Folded in half to make a standard A6 Card Base
1	Cardstock	14.3cm x 10cm	These are in the kit with two holes cut out of the front to make room for the baubles
1	Cardstock	Circle approx. 4cm diameter	You will have this in the kit in both white and gold
1	Cardstock	Circle approx. 5cm diameter	You will have this in the kit in both white and gold
2	Cardstock	Bauble Toppers	
	Ribbon		Make two small bows for the top of the baubles
	String		There is fine silver thread in the kit – this is to 'hang' your bauble

FROM YOUR STASH

CONSUMABLES

- Glue
- Double-sided tape
- Double sided foam tape OR cardboard

TOOLS

- Paper trimmer
- Scissors
- Bone Folder
- Embossing folder
- Die cutting machine

METHOD:

1. Use your embossing folder to emboss the two circles – use any embossing folder you like
2. Add double sided tape to the back of your card along the top edge and a small amount at the top of each of the ‘holes’ in the card.
3. Remove the backing paper from the double-sided tape and attach one end of the piece of string to the tape at the top of the card.
4. Wrap the string around the front of the card, through the hole and attach to the double-sided tape on the back of the card at the top of the hole. This is the ‘hanger’ for your bauble.
5. Adhere this mat layer to the front of your cardbase.
6. Adhere the bauble topper so the ‘hole’ of the topper is lined up with the string, and the bottom of the topper goes into the ‘hole’ of the mat layer.
7. Add double sided foam tape OR cardboard onto the back of your circles. NOTE: we used cardboard cut out in a circle slightly smaller than the ‘bauble’.
8. Adhere the bauble in position in the holes on the card.
9. Add a ribbon bow at the top of each card.
10. Add greeting as desired.

Torn Card

SUPPLIES

QTY	PRODUCT	MEASUREMENT	DESCRIPTION
1	Cardbase	21cm x 14.8cm	Folded in half to make a standard A6 Card Base
1	Patterned paper	14.8cm x 10.5cm (A6)	This is our base mat layer of the card
1	Coloured Paper	14.8cm x 5cm (approx.)	This will make our second mat layer of the card
1	Heavy weight paper (160gsm)	14.8cm x 5cm (approx.)	This will make our top layer of the card
	Ephemera		You will find ephemera matching the paper in the kit
	Greeting		

FROM YOUR STASH

CONSUMABLES

- Glue
- Double-sided foam tape OR Cardboard

TOOLS

- Paper trimmer
- Scissors
- Bone Folder

METHOD:

1. Get your 14.8cm x 5cm coloured paper and tear it so you have two pieces that are 14.8cm wide.
2. Get your 14.8cm x 5cm piece of heavy weight paper and tear it so you have two pieces that are 14.8cm wide.
3. Adhere the white torn pieces on to your coloured torn pieces making sure you can see the edge of the coloured paper. *TIP: don't put the glue right to the torn edge and use your fingernail to turn up the edges a little. This adds an extra bit of texture to your card.*
4. Position the two torn pieces to the top and bottom of your patterned paper making sure you leave plenty of the patterned paper showing and adhere into place. NOTE: the torn pieces will probably hang over the top and bottom edge of the patterned paper so just trim them once they are glued into place, so they end up the same size.
5. Add ephemera and greeting as desired. We used cardboard to add some dimension to some of the ephemera.

Easel Card

SUPPLIES

QTY	PRODUCT	MEASUREMENT	DESCRIPTION
1	Cardbase	21cm x 14.8cm	Folded in half to make a standard A6 Card Base
1	Patterned paper	14.3cm x 10cm (metric rectangle #2)	This is our base mat layer of the card
1	Coloured Cardstock	12.3cm x 8cm (metric rectangle #6)	This will make our second mat layer of the card – choose a colour to match your patterned paper
	Ephemera		We used the 'Aussie Stamps' for the front and the Flower bough for the inside.
	Ribbon	Approx. 20cm, but don't cut this length until you have it adhered to the card	This will go onto the 2nd mat layer

FROM YOUR STASH

CONSUMABLES	TOOLS
• Glue • Double-sided tape	• Paper trimmer • Scissors • Bone Folder • Scoreboard

METHOD:

1. Fold the front of your card in half. You can score your card front and then fold it in half for a crisper fold.
2. Put a piece of double-sided tape on each side on the back of the coloured cardstock.
3. Adhere the end of the ribbon to one side of the tape, wrap it across the front of the card and adhere it to the tape on the other side. Trim excess ribbon.
4. Adhere the Aussie Stamp ephemera to the front of the coloured card – over the ribbon.
5. Slip the end of the left-over ribbon under the ribbon where it is showing next to the 'Aussie Stamp' and tie it in a knot. Trim excess.
6. Adhere this whole piece to the patterned paper.
7. Adhere the bottom section of the patterned paper to the edge of the card front up to the fold line only.
8. Adhere the flower bough on the inside of the card (the side that you would write your message) near the edge. This will act as the holder for our easel.
9. Fold the front of the card so the base rests on the edge of the bough – as in the photos.

The following image is portrait style – you will follow the same process.
